## → About the Conference

- Aushadh 2K26: International Conference, organized by the Vishnu Institute of Pharmaceutical Education and Research (VIPER), serves as a premier global platform for bringing together academicians, researchers, scientists, industry professionals, and healthcare experts to exchange knowledge and insights in the field of pharmaceutical sciences.
- The conference aims to address emerging trends, innovative research, and technological advancements across various domains of pharmacy, including drug discovery and development, pharmaceutical technology, clinical and hospital pharmacy, regulatory sciences, pharmacovigilance, and the application of artificial intelligence in pharmaceutical research. It provides an opportunity to explore interdisciplinary approaches that integrate academia, industry, and research for the advancement of healthcare and pharmaceutical innovation.
- Through keynote lectures, plenary sessions, oral and poster presentations, and interactive discussions, the conference encourages scientific dialogue, collaborative research, and professional networking at both national and international levels. Special emphasis is placed on promoting young researchers, scholars, and students by providing a platform to showcase their research and engage with leading experts in the field.
- The conference reflects VIPER's commitment to academic excellence, innovation, and global collaboration, while contributing to the development of future-ready pharmaceutical professionals and enhancing the overall quality of healthcare and patient outcomes worldwide.

## → Objectives of the Conference

- To provide an international platform for academicians, researchers, scientists, and industry professionals to share knowledge, research findings, and innovative practices in pharmaceutical sciences.
- To discuss recent advancements and emerging trends in drug discovery, pharmaceutical technology, clinical research, pharmacology, regulatory sciences, and allied disciplines.
- To promote interdisciplinary interaction and collaboration between academia, industry, and research organizations at national and international levels.
- To encourage the integration of advanced technologies, including artificial intelligence, automation, and data-driven approaches, in pharmaceutical research and development.
- To facilitate the exchange of ideas on addressing current healthcare challenges through innovative pharmaceutical solutions.
- To support young researchers, scholars, and students by providing opportunities for presentation, learning, and professional networking.
- To strengthen academia-industry partnerships that contribute to translational research and real-world healthcare applications.
- To enhance global cooperation aimed at improving pharmaceutical education, research quality, and healthcare outcomes.
